## The Co-Operative on track with Evolvi

The Co-operative Travel Management, one of the UK's biggest TMCs, has agreed a three year contract renewal with Evolvi to provide online business rail booking and ticket fulfillment for its corporate customers.

'Last year saw record growth in revenues for Evolvi from £150m to £220m and this new agreement with The Co-operative Travel Management is a great way to begin 2009,' says Evolvi Rail Systems' managing director Ken Cameron.

'The Co-operative is one of the most respected names in the TMC community and we are delighted to be supporting their corporate customers through rail booking, ticket fulfilment and the provision of wide ranging procurement protocols and travel-related management information.'

The Co-operative Travel Management operates from 16 locations across the UK and employs more than 240 staff providing travel services for its corporate customer base.

Comments managing director Anthony Rissbrook: 'Evolvi has proven to be an important partner over the last three years in enhancing the service we provide to our customers - we are therefore pleased to have reached agreement for the contract renewal, particularly at a time of growing interest in UK business rail travel.'

This latest success for Evolvi follows on from the Home Office decision late last year to specify the company's self booking tool as part a three-way corporate travel management partnership. Evolvi currently powers business rail booking and ticket fulfilment services for eight of the top 10 TMCs in the UK.
